Hungarians Declare War On Allies

AMENDMENT COVERING THE MONROE DOCTRINE OFFERED BY PRESIDENT

BY CARL G. GROAT.

Paris, March 24.—An amendment to the League of Nations covenant, covering the Monroe doctrine, advocated by President Wilson and Colonel House, is expected to be presented at tonight's session of the league commission.

The proposed amendment would prevent any power from acquiring territory in the western hemisphere by conquest, purchase, treaty, or otherwise, unless the Americas consented. This article was reported today to be meeting with opposition from within the commission, especially by the British and French, who have extensive interests in the Americas. It could not be learned whether the President will attempt to force through the amendment despite the opposition, but it was believed he will strongly advocate its adoption, inas-

much as it would remove much of the ground for opposition in the United States. The Monroe doctrine proposal is held by some to mark a considerable recession from Wilson's original position, that the covenant would not be altered, except in a minor way. The proposal for changes in the covenant submitted by Senator King of Utah, have not yet been officially commented on.

Japan's recommendation for an amendment providing racial equality, was not presented at Saturday's meeting. (A press association despatch Saturday said it was up for consideration. The United Press said its presentation had been postponed.)

It may be reserved until the constitution is debated by the Plenary session. Many of the delegates are understood to favor equality of nations, but not of nationalities.

FIVE MEXICANS ARE KILLED BY AMERICANS

Marfa, Texas, March 24.—Troops of the Eighth United States cavalry under Captain Kloeffer, returned here early yesterday from a pursuit across the border of Mexican bandits, bringing with them 35 cattle and two horses which had been driven from the Nunez ranch by the raiders yesterday. Captain Kloeffer reported that he had overtaken the Mexicans 18 miles south of Ruidosa and that five of them had been killed in the resulting skirmish. None of the Americans were hurt.

"HUMAN FLY" CLIMBS GRAND HOTEL BUILDING

Harry Lewis, "human fly," entertained a large crowd of Saturday afternoon shoppers while he ascended the side of the Grand Hotel building at 5:30 o'clock Saturday evening. Lewis advertised his stunt on the streets all Saturday afternoon with a Charlie Chaplin make-up and he amused pedestrians who stopped to watch his antics. Kids followed him in crowds as he cleverly duplicated the feats of the great screen star. After he had climbed to the top of the Grand Hotel building, Lewis emphasized his feat by standing on his head on the cornice around the top of the hotel.

TWO CHIC BONNETS FOR THE YOUTHFUL

How easy it is for the woman with the youthful face to choose the proper bonnet! Almost any of the jaunty little shapes in the shops will give a pleasing line. Here are two smart little hats for the coming Easter time which are distinctly youthful models. The black hat is made of spangled tissue trimmed with fancy plumes, while the hat on top is a cunning little jockey shape of leghorn and blue georgette.

FRAU HINDENBURG TELLS WHY GERMAN ARMY WAS DEFEATED

Berlin, March 24.—British sailors disguised as German sailors, organized and started the Kiel revolt, which was the initial movement in the German revolution, Frau Von Hindenburg charge in an interview with the United Press.

Frau Von Hindenburg, who is a sister-in-law and confidant of the Field Marshal, is a daughter of Prince Muenster, and was familiar with the intrigues and intrigues of European diplomatic circles.

Field Marshal Von Hindenburg believes the German army was never defeated militarily, but was stabbed in the back by the revolution, according to his sister-in-law.

"The Marshal's greatest failure was his source of information," she said. "He was told the U-boats would keep the Americans away, and that there would never be more than 200,000 of them in France."

"He believed victory was certain up to August. Then he planned to retreat to the border and stand like an iron wall until satisfactory terms were offered. But traitors in the German general headquarters stole his plans. The traitors cut communications and supplies in the rear before the revolution broke. Some divisions were without food four days. Two surrendered because of hunger."

"English sailors disguised as German sailors, organized and started the Kiel revolution. That defeated Germany."

"The Marshal was opposed to invasion of Belgium, as well as the declaration of war against Russia. He favored arming and holding the frontier of Germany."

"The Kaiser loved and wanted peace. He feared the Crown Prince was overshadowing him by junkerism."

"How the government is going to last I don't know. Germany is crushed. I think her only hope is for President Wilson to beat Premier Clemenceau."

FIFTH LOAN TO BE THE LAST ONE

Chicago, March 24.—Secretary of the Treasury Carter Glass in several appearances here before Liberty loan organizations, financiers and editors and publishers has assurance that the fifth Victory Liberty loan would be the last popular loan to be supplanted by a bond bureau of the treasury department, and confidently predicted that the American people "will make it the greatest success in the financial history of the world."

"The Victory Liberty loan should be subscribed by the people from their savings and earnings," said the secretary in one address, adding that the people in one way or another must meet the government's obligations.

"They may on the one hand lend to their government and receive their capital with interest," he continued, "or the government will have to raise funds by direct taxation, which takes away the funds entirely from the people."

WANT MINIMUM WAGE OF DOLLAR AN HOUR

Cleveland, March 24.—A meeting will be held here next Sunday to organize socialist committees in factories to send delegates to a soviet. Demands of \$1 an hour minimum wage and a six hour day for workers will be made.

C. E. Ruthenberg announced plans of the organization yesterday at a meeting held as a protest against sentence of Eugene V. Debs, for violation of the espionage act.

MORE PROOF IS ADDED TO THE WAR GUILT OF GERMANY

Paris, March 24.—President Poincare, speaking today at the reopening of the Higher Normal School, said Austria and Germany before declaring war on Russia and France created an irreparable situation by the ultimatum to Serbia and by a systematic refusal of any intervention or conciliation.

"Further discoveries have just brought complementary, if superfluous, proofs," the President said. "Telegrams dated July 25 and 26, 1914, show that Berlin had pushed Vienna to put Europe in the face of an accomplished fact."

"On July 11, 1914, the Austrian Ambassador in Paris was informed from the Kaiser's office, that the two central empires had reached an entire accord on the political situation resulting from the Sarajevo incident and on all possible consequences."

"An accord on all consequences, mark you! Not only did they declare war, but they sought it, wished it and precipitated it."

OHIO FIGHTING YANKS ARRIVING IN THE HOME LAND

New York, March 24.—Ohio's fighting Yanks, members of the 37th division, who upheld the Buckeye state's honor in the Argonne forest, at the Meuse River—are arriving back in the home land again.

One hundred and forty-five officers and 3,960 men are down at Camp Mills today awaiting transportation to their native state.

They arrived yesterday on the U. S. Cruiser Huntington, the Holland, American liner Noordam and the transport Von Steuben.

Major General Charles Farnsworth who has commanded the 37th throughout its fighting on foreign soil, came back yesterday with the division's staff officers on board the Noordam. He was greeted by Governor Cox, Adjutant General Layton, of Ohio, and Mayors of various Ohio Cities.

Gov. Cox has gone to Washington in an effort to have the 37th boys paraded in Ohio Cities, before disbanding.

According to official reports, the 27th occupied a larger portion of the west front during their combative activity than any other division. Figures in the casualty lists showed that 982 Ohio men were killed and a total of 3269 men were wounded.

The division, which comprised 27,000 men received 152 citations from Belgium, two crosses of the order of Leopold, two of the legion of honor and fourteen other French decorations of a higher order.

The Croix De Guerre was bestowed upon 221 men. The division was greeted November 20 by King Albert of Belgium.

SWEEPING INVESTIGATION
Chicago, March 24.—Sweeping inquiry was to be made today of the Army Quartermaster's department here, following charges of army graft.

REPUBLICANS WILL PASS SUFFRAGE BILL IN NEXT CONGRESS

Washington, March 24.—Arrangements have been made by Republican leaders in congress to have action taken on the Woman Suffrage resolution during the first week of the next session. It is proposed to adopt the Susan B. Anthony amendment both in the senate and house without delay and the substitute plan proposed by Senator Gay, which leaves the matter of franchise to the states, will be entirely ignored.

The suffrage resolution will be ordered in the senate by Mr. Curtis of Kansas on the day congress convenes. It will be referred to the committee on Woman Suffrage, of which Senator Johnson of California, is scheduled to be chairman. He will call a meeting of his committee the following day and favorably report the resolution.

It is intended to bring the matter up the following day for discussion. If any disposition to filibuster is manifested the cloture rule will be invoked and debate brought to an early end. No chance will be taken on having the subject discussed until more important matters crowd it aside.

A careful count of noses in the next senate shows at least 65 votes for the amendment, a clear leeway of one in excess of the two-thirds required. It is predicted the number of spare votes will be increased to four or five before action is taken. It is believed that Senators Knox and Moses may support suffrage.

The resolution will be offered in the house on the first day of the session by Representative Mann, who will be chairman of the committee on Woman Suffrage. He will urge quick action and it is said there are enough votes and to spare for adoption in the house.

The Republicans desire to have full credit for giving women the ballot and are going to lose no time in nailing it down.

EDITOR OF "BULL" FOUND NOT GUILTY

New York, March 24.—The jury in the case of Jeremiah O'Leary, returned a verdict of acquittal on four of five counts in the indictment. The jurors deliberated more than 53 hours.

Adolph Stern, business manager of Bull, O'Leary's magazine, was acquitted on all counts. The two other defendants, Bull and the American Truth Society, of which O'Leary was head, were also acquitted on the first four counts. The count on which the jurors could not agree dealt with alleged seditious matter published in Bull. John J. O'Leary, speaking for Jeremiah, declared he was well satisfied with the verdict. The prosecutor refused to state whether the government would try O'Leary again on the one unsettled count.

YOUNG MEN GOING INTO BUSINESS

Copenhagen, March 24.—Detachments of the Russian Bolshevik armies were reported in a Berlin dispatch today to be marching toward Budapest to aid the New Soviet Republic established in Hungary.

The dispatch said a state of war has been declared against the entente and that a general mobilization has been ordered in Hungary.

Dispatches from Vienna said the Bolsheviks in Budapest have promised that the main forces of the soviet armies would be ready to march into Hungary within a few weeks. The newly formed workmen's ministry in Budapest is said to be headed by Alexander Garbai.

The Hungarian soviet republic, according to a Budapest dispatch, has sent a wireless message to Premier Lenine asking him to come to Budapest and personally take charge of the situation. Lenine was greeted as the "international leader" and was assured of Hungarian "solidarity."

Count Karolyi in announcing the resignation of his ministry, issued a proclamation declaring allied occupation was intended to make Hungary the "jumping off place" for operations against the Russian Bolsheviks with the aid of Czech troops. He said the workmen's and soldiers councils had decided that they must form an armed alliance with the Bolsheviks against the entente.

London, March 24.—Fear of spread of Bolshevism into Rumania, Poland and Czechoslovakia as the result of the setting up of a soviet government in Hungary was expressed by London newspapers today.

The newspapers called the Hungarian situation most alarming. Editorials declared it confronted the statesmen at Paris with a serious problem and might complicate the work of delegates seeking a quick peace. Liberals argue that events in Hungary demonstrate the immediate need of a league of nations.

Basle, March 24.—General Georgy, commanding an army of seventy thousand Bolsheviks was reported in a Vienna dispatch today to have crossed the Dneister river and entered Galicia. His army composed largely of Hungarian and Bulgarian troops captured by Russia during the war, is said to be following the Lemberg-Budapest railway.

Lemberg is 70 miles from the Russo-Hungarian frontier. The Poles recently recaptured the city from the Ukrainians.

A dispatch from Budapest said the Czechs have begun to mobilize against the Hungarians. The Hungarian soviet sent Premier Lenine a wireless addressing him as "chief of the Universal Soviet" and asking military aid of the entente. Lenine replied that Russia is delighted at Hungary's action and that she would keep in touch with the military situation.

A dispatch to the Matin said General Petlura, leader of the Ukrainian army, has opened negotiations with Lenine, who promised autonomy for the Ukraine, providing Petlura fights against the Poles, "and entente's imperialism."

REV. QUINN RESIGNS AND WILL GO TO MEXICO FOR HEALTH

Owing to ill health, the Rev. James E. Quinn has resigned as pastor of St. Brigid's church, and expects to go to New Mexico.

He announced his resignation to his congregation at the morning services Sunday, and told the people that he expects to leave within the next two weeks. His health is such that the work required of the pastor of the local congregation, is beyond his strength.

Father Quinn has been pastor here six years, being assigned to the local church from Springfield, where he was an assistant pastor at St. Raphael's church. Four years ago he spent several months in the south, and returned benighted in health, so he hopes that the climate of New Mexico will be of great help in restoring his strength.

His resignation has been tendered to Archbishop Moeller, but a pastor has not yet been appointed for the local church.

NEW SOVIET REPUBLIC FORMS ALLIANCE WITH RUSSIAN BOLSHEVIKI

Berlin, March 23.—The new Hungarian soviet republic has formed an alliance with the Russian Bolsheviks and declared war on the entente Budapest dispatches announced today.

Bolshevik forces were reported to be moving into Hungary to aid the new government against French and other allied troops, which are scattered throughout the country.

The action of the Karolyi ministry in resigning and turning the country over to the communists was said to have resulted from dissatisfaction at allied occupation and proposed adjustment of the Hungarian frontiers by the peace council.

The soviet cabinet is made up as follows:

Alexander Garbai, president; Eugene Barga, minister of finance; Josef Poganny, minister of war; Wilhelm Boelm, minister of socialization; Bela Kun, minister of foreign affairs.

The new cabinet issued the following proclamation:

"Uniting with the worlds bolsheviks, we rise against the entente and imperialism and proclaim general mobilization. All opponents will be executed."

In 1883 Sir Arthur Garrod proved that in gout (also true in rheumatism) there is deficient elimination on the part of the kidneys and the poisons within are not thrown off.

Prof. H. Strauss attributes a gout attack to the heaping up of poisons where there is an abundance of uric acid which is precipitated in the joints and sheaths, setting up inflammation. Before the attack of gout or rheumatism there is sometimes headache or what is thought to be neuralgia, or rheumatic conditions, such as lumbago, pain in the back of the neck, or sciatica. As Prof. Strauss says, "The excretion of uric acid we are able to effect by exciting diuresis." Drink copiously of water, six or eight glasses per day, before meals, and obtain Anuric tablets, double strength, for 60 cts., at the nearest drug store and take them three times a day. If you want a trial package send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

"Anuric" (anti-uric) is a recent discovery of Dr. Pierce and much more potent than lithia, for it will dissolve uric acid as hot tea dissolves sugar.

WRIGHT FIELD AND MCCOOK FIELD ARE TO BE ABANDONED

Washington, March 24—Camp Sherman, the national army cantonment located at Chillicothe, O., together with many other similar military posts erected at the beginning of the war, are to be retained by the government as permanent military posts, according to announcement made by the war department.

An announcement by the department tonight stated that the site upon which Camp Sherman is located, is to be purchased at a cost of \$1,150,000. The announcement also disclosed that the total cost of constructing barracks and other necessary buildings and sewage at Camp Sherman to date has been \$12,900,000.

The announcement says that McCook aviation field at Dayton, which cost \$799,753 to construct, is to be abandoned.

Wilbur Wright field, also near Dayton, is to be retained under lease for temporary storage purposes, and later will be abandoned.

Tree Trunk Doesn't Grow.

Tree trunks do not grow in length between the tap root and the lowest branch. Also the tap root when cut off at a special length always remains the same length, for it is but the trunk or body below the soil. Both root and body may branch, or lengthen by new leaders.

STAY ON THE WATER WAGON!

If You Are One Who Has Quit
Indulging in Strong Drink,
Cadomene Tablets Will Help
You Over the Rough Period.

Cadomene Tablets are helpful to weak nerves. Weak, faulty nerves often come from strong drink. Sometimes the system is impoverished by excesses of one kind or another, such as poor digestion and faulty nutrition. Overwork, anxiety, and even grief causes abnormal nervous conditions. The strength of body declines. The strength of will power wanes. Nervousness and sleeplessness causes further weakness and loss of vitality. Years of faithful practice taught a great physician that the formula now used to make Cadomene Tablets would surely build up the health of his patients. Now, anyone can take this great medicine if needed. Mr. G. A. Hoover, R. R. No. 1, Reading, Pa., writes: "I am taking Cadomene Tablets with very gratifying results. Nervousness, overwork, and sleeplessness are my complaints."

Mr. Joe N. Herndon, 1645 Twenty-fifth St., Sacramento, Cal., writes: "I am using Cadomene Tablets and find a great improvement has been brought about in two days."

GREAT PROGRESS IN WALL PAPER INDUSTRY

That the spirit of progress along lines which brings the ideal into harmonious working relations with the commercial world to a most gratifying degree is finding expression in the business world, is clearly evidenced by the "uplift" work that is going on in the wall-paper industry. To be sure, it is an industry in which the ideal might naturally be expected to find conspicuous expression since it has to do largely with art and the appeal to the finer senses.

The broad scope of the work is to

PULL TOGETHER FOR BLESSINGS OF A HIGH ORDER

Nerv-Worth and Nerv-Worth Laxative Tablets Do Wonderful Teamwork.

These two famous family medicines unite their forces with happy results for those whose nervous systems are mixed up with stomach, bowel and liver troubles. Nerv-Worth, the liquid, generally masters derangements of the liver and bowels, but in some cases these are too deep-rooted to surrender quickly and then the Tablets, taken in conjunction with the liquid, do wonderful work. They are especially valuable in cleansing the bowels for those whose habits of constipation do not readily yield to the laxative properties of Nerv-Worth, the liquid. A bottle of Nerv-Worth and a 25c box of the tablets form a combination without equal in overcoming ills of the nerves, stomach, bowels and liver.

Sayre & Hemphill sells Nerv-Worth in Xenia. Your dollar back if this famous family tonic does not benefit you. W. F. Harper sells Nerv-Worth at Jamestown. adv

Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

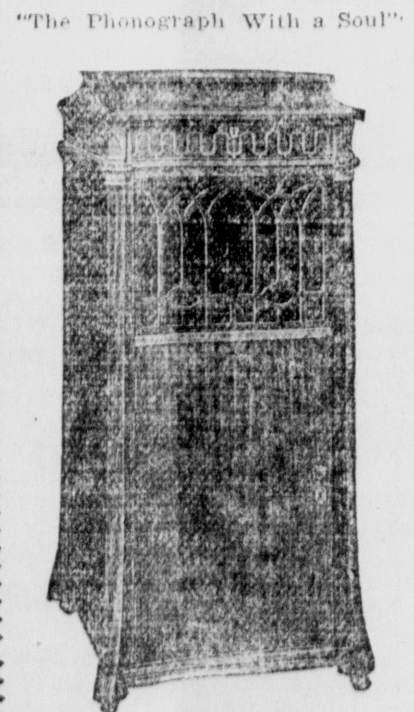

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

UNREPENTANT GERMANY
BLAMES ALL WOES ON
FOES.

Taking into consideration the fact of the bitter feeling in this country towards Germany, it seems quite strange to be told that the reverse is the case in the matter of Germany's feeling towards the United States and towards our soldiers right there on the Rhine, the ever present evidence that they are the under dog in the fight.

We heard the other day of a returned soldier bragging on Germany, of how kindly they treat our soldiers there, and of his being so well pleased with Germany that he would like to go back and live there. The statement was such a surprise to his lady informant that the latter could scarcely believe that the soldier boy was in earnest. But he assured her that he was.

Of course "there is a reason." The United States has never done anything to embitter Germany, while on the contrary Germany has committed unpardonable sins against us, as well as against practically all the balance of the world. Her horrible crimes have been so far below the standard of brutality usually ascribed to human beings as to be classed with those of the savages. This is why the civilized world looks on Germany as a "den of unclean beasts," unfit for association with decent folks. This was why the returned soldier's views were so astonishing.

But, notwithstanding his views of Germany, let no one think Germany is repentant. Scarce as hen's teeth is the evidence of repentance on the part of those who have deliberately committed great crimes. Look, for instance, at the brazen Confederate monuments of our own fair land, and at the bitter unconstructed women of the South glorying in their "lost cause" as a holy thing. The eternal ages are evidence that defeat dies hard. Just see how poor old John Barleycorn is kicking, like a rooster with his head off.

From the German papers one can see that in their view of the late unpleasantness, the farce or tragedy as you please, that France is the villain in the play, with England as a close second. And, unthinkable as it may seem, they are very bitter against Belgium. Just think of that—the bold and cruel highwayman and ruthless robber bitter against his poor and cruelly treated victim. How can God ever forgive such?

The United States is, in the German public mind, rapidly assuming the character of savior. Columns are printed praising the high qualities of our troops in the Rhineland. Trade papers write with unceasing malice about the probability of American trade crowding out British trade in the world's markets.

One point is distinctly noticeable; notwithstanding the fact that the recent disclosures must convince every individual in Germany that his own government was entirely to blame for commencing the war, one never reads of a single hardship that the German people are undergoing that is not ascribed bitterly to the ruthless and relentless enemy.

This lack of ability to analyze their misfortunes carries to incredible lengths.

The Germans are as insincere and unfair as they have ever been, and their egotism makes them feel that since they cried for peace—rather than continue the war on their own ground—they should be treated with the most tremendous consideration and kindness, and they feel themselves justified in blaming all their present ills on the Allies.

TAKING THE SALOON'S
PLACE

From the Kansas City Star.

What are men going to do for a place of sociability when the saloon goes? The saloon has been in many ways an informal club. It is about the only club the working man has had a chance at. There he could meet his friends, there he could loaf and gossip. It has been a perfectly free and easy place in which anybody could feel at home.

Unfortunately, it carried unwholesome features that finally brought about the decree of banishment. The question now is what is to supply the real service to the community that gave the saloon so much of its strength.

No philanthropic institution will do. It can't be run so men will feel at home in it. They don't want to be done good to. They simply want to be sociable. They have got to feel that the place is really theirs. The Y. M. C. A. and the Knights of Columbus have their place, but there are tens of thousands of men whom they never could reach, who would not feel comfortable in accepting their hospitality.

The suggestion has been made of community houses, to be erected as centers of sociability by the municipality. It seems probable that such institutions might do well in the smaller cities. It would be a miracle if they could create the friendly, "home" atmosphere called for in an institution that is to replace the saloon.

The corner grocery store has been a loafing place in villages from time immemorial. But it isn't available to any extent in the city. The drug store is open evenings, but the owner is a business man and he doesn't encourage loafing in his place.

It is possible that a soft drink-lunch counter combination may fill the bill. It would have the advantage of being on an economic basis, of paying its way. It would flourish in accordance with the way in which it met the requirements of its customers. It is a sort of natural evolution of the saloon. If it should prove a practical proposition in profits to the proprietor, it would soon develop.

THE HOME COM-
FORTABLE

This is a suggestion from a friend of mine who travels quite a good deal yet, always looks fresh, crisp and dainty at her journeys end. She says: "If you are traveling across country, or visiting a friend, or belong to the throng of women workers who cannot afford large laundry or cleaning bills, or have not the time to wait for the return of the laundry try this the next time you travel."

If you are on the train and wear a robe, crepe, Swiss or georgette waist and it becomes soiled and your supply is limited, take your waist into the dressing room, just after your berth is made up, make a tepid suds with a little Ivory soap and wash the waist gently with your hands until clean, rinse thoroughly with two waters of the same temperature. If the waist is of a fast color wash it the same as a white one.

Now take any white soiled waist or underwaist and stuff it full of newspaper until the natural size, fill out the sleeves as well. Shake out the laundered waist and stretch and pull gently until smooth, then put it on over the dummy waist, stretching it evenly into place and button or hook it in place.

Attach a piece of string to the underwaist from the neck and hang it up at the foot of your berth suspended from the top so that the air can circulate around it and in the morning you will find a beautifully laundered waist ready to put on. You can launder your stockings in the same manner by stuffing them full of crushed paper and suspending them by the tops to dry, also gloves.

THE PROMOTER'S
WIFE
BY JANE PHELPS.

ONCE MORE BAB IS DISTURBED
BECAUSE OF BLANCHE ORTON

CHAPTER LXIII.

The next three months passed quietly and quickly for me. I was so happy with my baby boy, so busy getting strong and well so that I might really care for him properly, that nothing else seemed to affect me.

Then one day I suddenly woke up to the fact that Neil was out a great deal; that in the last month he had not only taken up the old habit of staying at his club, but that he was remaining away later, and more often than he ever had before.

He had been so devoted to the months before baby came, so tender and thoughtful of me in the few weeks afterward, that I had been lulled into a forgetfulness of things that had gone before.

It was at a dinner given by Blanche Orton, that my eyes were opened. Just a small dinner to a few. She was still in soft grays and laven-ders, altho her husband had been dead a year. They were becoming, Lorraine Morton said, and that was the reason she wore them so long.

I got a very expensive and beautiful gown. I had the same feeling I always had had about looking my best before Blanche Orton, even tho I had given her very little thought the past few months (one reason probably being that Lorraine Morton, who usually brought me all the gossip, had been out of town on a visit.) I rested all day long—a tribute I never thought of paying a dinner before baby came. And I was satisfied that I never had looked better. Neil's eyes showed he was pleased and he said several flattering things, making me feel still more assured that I should not be entirely overshadowed by her hostess.

There were only eight at the table. As it used to be, Neil was next to Mrs. Orton. It seemed to me that she had taken on new fascinations, new attractions. Surely no grief because of her widowhood, was evident on her face; it wore a more vivacious look than before the tragedy. In fact, I had seen her but once or twice since that. She too had been away, and I had remained so closely at home it was not to be wondered at that I felt almost a stranger.

Aside from Lorraine, the guests were strangers to me. But they were gay, attractive people, and I know I talked better than usual—until I saw Lorraine gazing at Neil with such a peculiar look in her eyes that my attention was attracted.

I saw at once he was drinking too much. Then, too, he was leaning toward Blanche, and they seemed to be arguing about something—something disagreeable, it seemed to me. I felt a touch of uneasiness. Such argument, the expression on their faces, showed a degree of intimacy not compatible with the courtesy due a hostess; neither did it give one the impression of a flirtation.

I dropped a little. What could they be talking about in that earnest, confidential way? I had really enjoyed my evening up to the time I caught Lorraine looking at Neil. It had been so long since I had been to an affair.

I made up my mind to question Neil the moment we were alone. Why I should have thought he would be more willing to confide in me because of baby's coming, I can't explain, but, somehow, I did.

Neil and I had rarely talked of anything save the baby since he came. I had not realized it until then. It came to me suddenly that he was talking to her, Blanche Orton, about his business. And that he looked queerly worn out and nervous compared to what he had when we left home.

I would urge him to go away for a vacation. Not alone baby and I would go along. We would find some quiet place where he could rest.

Before we rose from the table he seemed to have recovered his spirits. But, somehow, what I had seen had made me remember very poignantly the things which had so worried me months before.

To George S. Ormsby

Written on the occasion of his ninety-sixth birthday.
By
PHILLIP B. LAUGHEAD
(PHIL LANG)

(This beautiful poem was found among personal papers of the late Phillip Laughead (Phil Lang), whose untimely death a few months ago in New York, ended a brilliant career, and shocked and grieved numerous friends and admirers. It is published for the first time, and shows Mr. Laughead's ability and versatility in a line which he never made an attempt to develop, that of poetry. It also gives an insight into the young man's fine character, his faith in God, and his reverence and respect for age.—Editor.)

The days of man are three score years and ten
To hold his sway, to conquer or to fall;
Thus sang the ancient in his psalm, that men
Might mold their destinies, ere time should call.

What providential dispensation stays
The rule of time? Who scorn the primal lore,
And grants to you, beyond your lot, the days
That roll to years, and years beyond a score?

Has man-made code arisen to confute
The bounteous law of life you cast aside?
Shall he who cites the sage of old stand mute—
Dishonored, overwhelmed, unjustified?

My tongue is stilled. Has not the prophet said:
"Him that hath love and faith, his God shall bless,
A crown of glory is the hoary head,
"For he hath lived and walked in righteousness."

I know that the Omnipotent above
Has seen the hand that led, the mind that taught,
The endless deeds of kindness and of love,
The fruitful hours denied to none that sought.

My questions cease. I see and understand,
You dwell with God on earth. Your path lies here.
Thus time rolls on, and, passing, draws its hand—
They like a summer cloud, descends the year.

Coughing Tires the Old

Elderly people, tired out and weakened with coughing, will find great help and comfort in

FOLEY'S HONEY-TAR

It relieves those chronic coughs, usually bronchitis in character, and puts a soothing healing coating on a dry and tickling throat. It raises phlegm easily. George Perry Randall, Dayton, Nevada, in his 57th year writes:—I take Foley's Honey and Tar for coughing and tickling in the throat. Sometimes the spell of coughing would last from five to ten minutes. I am very glad to tell you that Foley's Honey and Tar has stopped all that, and also the tickling.

PERPETUATE THE MEMORY OF T. R.

The Woman's Roosevelt Memorial Association, organized in January immediately after the death of Colonel Roosevelt, has just announced the form of the permanent memorial which the women of America will erect to the memory of the great leader.

The Association is to acquire Colonel Roosevelt's birthplace at 28 East Twentieth street, and the adjoining property at 26 East Twentieth street, New York City. The place of his birth is to be restored and the interior reproduced. And the whole "Roosevelt House," with its assembly halls, is to be not merely a museum, not merely a record of the vigorous life and growth of our great American, to be visited by those all over the country who loved him and who would study the influence that made up his growth; it is to be, more than this, a center of citizenship activities, a LIVING thing, a place where the boys and girls of America—and the men and women as well—will come together in citizenship activities, in order that their understanding of America may become deeper and keener, and in order that the great ideal of practical service to our country, of indefatigable activity in their behalf, shall stir and move with vivid power all Americans that frequent or visit "Roosevelt House."

"That Colonel Roosevelt's vigor of life, robustness of belief, and energy of will may be eternally recalled to the youth of America, is the real spirit and background of this memorial," said the officers of the Association in making their announcement at the Association offices at 1 East 57th street. Long and careful consideration has been given to the possibilities. Mrs. Leonard Wood is the honorary president of the Association, and Mrs. William Curtis Demorest is president.

ROB INDIANS OF ROMANCE AND GIVE THEM PROSPERITY

Winnipeg, Canada, Mar. 24—Canada has transformed its Indians. It has robbed them of romance, but it has given them prosperity.

Eagle Feather, the old chief, cranks his automobile in front of his farm house. He climbs into the seat behind the wheel.

"Come on, children," he calls, "or you'll be late for school."

Five happy-faced youngsters romp out of doors, kiss their mamma good-by, and the machine purrs along the road through the wheat fields and orchards for the little red school-house. Old Eagle Feather drives back home and does a day's plowing.

That's the Canadian Indian today. Gone are the glories of the warpath, the paint and feathers, the yelling triumph of lifting scalp. You tell an Indian only by the color of his skin and his straight black hair. Otherwise he is like ordinary country folks.

"Canada has solved its Indian problems," said William Graham, Commissioner of Indian Affairs of Western Canada. Canada has civilized him. "The Canadian Indian today is an educated farmer. He is a Christian and goes to church regularly every Sunday—often drives there with his family in his automobile. His children go to school. He makes his living by cultivating the soil. He is as good a farmer as his white neighbors—sometimes a better one. Government agricultural experts visit him periodically. They teach him the latest scientific methods of cultivating the land. Many Indians are agronomists in the highest culture sense. The new generation is keen to learn and progress and become the equal of the white man in every way."

"The richness of Canadian soil has had much to do with changing the Indians. They have seen their white neighbors taking fortunes out of the ground with a plow, and it has encouraged them to do likewise."

The Commissioner said there was no foundation for the common belief that the Indians were gradually dying out. The Indian population of Canada has been increasing for the last ten years. Better living conditions, education and medical attention are accountable for this. There are 100,000 Indians in Western Canada who put under cultivation 100,000 acres of land last year. They produced 400,000 bushels of wheat. All the Indian reserves are self-supporting.

Two thousand Indians enlisted in the Canadian army, went overseas and upheld their old warpath traditions in the war against the Hun.

OFFERED POSITION IN EASTERN SCHOOL

Miss Lena Hetzel has recently received two calls urging her to accept a position as visiting teacher in one of the city schools in Hartford, Conn., at a splendid salary.

Miss Hetzel acted as assistant visiting teacher in Hartford while a student in the Kennedy School of Missions of which she is a graduate and is well acquainted with the work which though practically new, has become of vast importance in the schools of the larger cities.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts before breakfast if your Back hurts or Bladder is troubling you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become over-worked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

PETITIONS FOR SUNDAY PICTURE SHOWS CIRCULATED

For the purpose of feeling the pulse of the public in the matter of Sunday picture shows and of creating sentiment in the State Legislature in favor of Banker Bill No. 720 which provides for local option on the question of Sunday shows, a number of petitions are being circulated in Xenia, which are being signed by a number of Xenia people.

The Sunday operation of picture houses and other theaters is a much discussed question with arguments both for and against. At present theaters are running wide open in the large cities against the law and the result of the Banker Bill will disclose whether these will continue to operate or whether they will be closed all over Ohio.

Theater managers claim that going to a good, clean picture show on Sunday, one probably of an educational nature, is far better than spending the day in some less worthy occupation or amusement such as gambling in gangs along the railroad track as is customary in this as well as other small towns. It is also pointed out by advocates of the open-Sunday movement that in Xenia especially, there are numerous men and boys who go to Dayton and other cities for their amusement and are thereby subject to the temptations present in a large city or where they attend shows of not nearly the moral standard that could be maintained in local picture houses were they open on Sunday.

Two Things Seemed Evident.
An Irishman was brought up for stealing ducks. The evidence against him was overwhelming, yet witnesses followed on each other's heels to testify to his white and blameless life and his stainless character. "Gentlemen of the Jury," the judge summed up, "I think you will agree with me that the prisoner stole the ducks, and that he is the most popular man in the county."

Worth Trying.
It is estimated that one pound of nitrogen properly applied to the soil will increase the yield of wheat by at least one-third.

COMMUNITY AFFAIR ELABORATE EVENT

Over two hundred people of Orient Hill enjoyed the Community affair given in the Orient Hill school house Friday evening. The affair was one of the most successful of the series of events conducted by the residents of that neighborhood.

The meeting was presided over by Attorney C. W. Whitmer and an interesting program was delivered. Miss Dorothy Ledbetter, opened the program with a piano solo and she was followed by the pupils of the first four grades at Orient Hill school who went through clever exercises and folk dances in turn. There were also recitations and songs, little Miss Dora Hayward reciting a clever little story.

Mrs. Noble and her daughter, Miss Mary Noble, delivered a play, and violin duet and they also sang. Misses Martha Wilson and Dorothy Norckauer each gave a reading and eight girls sang and danced "The Old Fashioned Wife." The girls in the part were Misses Helen Hurely, Dorothy Clark, Evelyn Weddle, Mildred Sutton, Marjorie Weddle, James Hayward, Hazel Ary and Dorothy Ledbetter. The same girls were characters in the school in rhetoric conducted by Mrs. C. R. Stearn in which each of them recited. A vocal duet "Beautiful Ohio" by Misses Helen Hurely and Dorothy Clark was very pretty. Col. I. T. Cummins, who was present, was called on by the chairman and delivered an interesting talk.

Following the program refreshments of sandwiches and coffee were served.

Holly Used as Symbol.

It was usual at Roman weddings to present the bride with a wreath of holly, significant of the warmest congratulations. In India and Persia the followers of Zoroaster, the founder of fire worship, soak pieces of holly bark in water and throw the infusion in the faces of newly born babies, believing this will insure them prosperity and safety in this world.

Sun Power Beats Coal, Is Claim.
The Philadelphia inventor of a sun-power engine, which is said to be working successfully in Egypt, has figured that it would be necessary to cover but 20,250 square miles of the Sahara desert with the engines to obtain as much power as the world's coal supplied in 1909.—Baltimore American.

SEVENTEEN YEAR LOCUSTS ARE DUE THIS YEAR

The plague of the cicada is coming; it is due this year. Scientists who predict such things are on tip-toe of anticipation. Instinct with interest they await the rare recurrence of a dread event. The day of trouble which they foretell with perfect trust in past performances will soon be here.

In early spring millions upon millions of these abhorrent, forgotten pests long buried in the ground will burst their cerements most seriously to shake the farmer's dispositions and the eardrums of all others in certain selected States and sections. New York shall not altogether escape them. Wholly or in part New Jersey, Pennsylvania, Virginia, North Carolina, Georgia, Kentucky, Ohio, Michigan, Illinois, Texas and Alabama shall be more or less covered by their hordes. The rest of the country seems to be immune, although there will be more than enough to go around.

Is this the seventeen year locust? It is and it isn't. Most people will call it that, but not those who know bugs. They say that there is no such thing; that the cicada which comes every seventeen years is not a locust at all. A scourge of locusts is spoken of in the Bible, but it could not have referred to the cicada because it has never been found in Egypt or anywhere in Europe. The Bible insect was probably the only locust known to science, the far more destructive grasshopper of both hemispheres. The confusion of terms was natural. It began in 1609 when to early American farmers the sudden bursting forth of immense swarms of the cicada recalled the similar comings of the real devastators of the crops of the Old World with which they were familiar. It is the trees, not the crops, that the cicada destroys.

There are wonders as puzzling and mysteries as profound encountered in the study of the material world as are met with by astronomers in their observation of the heavens. The coming of the cicada is one of them. The time may be announced with the accuracy of an eclipse or other change of sun, moon or stars. Such phenomena may be explained; the cicada cannot. Ornithologists have found the routes and timed the flights of bird migration; its cause defies them. Entomologists tell the story of this insect, but only a little part of it is discovery; the greater part sounds like a fairy tale of admitted scientific speculation. They ask us to imagine a tiny grub sealed in a solitary cell content to live buried deep in earth for seventeen years without light or air just to spend a few hours in the sunlight among the birds and flowers and its own kind. The cicada has been doing this since the world began, but no one yet knows why nor how. They tell us that fresh born this grub falls from branch to ground and sinks itself to the roots of trees there to grow and fatten until in the appointed year it disengages itself, works up through earth to emerge on the tick of the clock in enormous numbers full fledged for love and family cares.

The female promptly silts a tender branch of tree or shrub and lays her countless eggs to perpetuate her kind. The male meanwhile pounds out his lullabies, which never have received favorable mention. They are probably better than any other bug that could produce from a drum built in their abdomen unless they had his special muscles to beat it. The eggs, being left to germinate, the ant-like larva falls to the ground to repeat the peculiar subterranean process prescribed for this insect in a never changing cycle. The old folks have a time of it for a week or two, but no longer. Nature leaves their bodies on the top of the ground there to shrivel into dust for the wind to sport with.

In this short life the cicada cannot eat the crops; it is not fitted with the right sort of a mouth or stomach to eat or digest grain nor can it attack the stems or leaves of anything. Yet it is a destructive pest, nevertheless, a veritable plague to farmer, fruit raiser and nurserymen. Hundreds of thousands of dollars is their loss on every visit. The damage comes from the slits made in the trees for the laying of the eggs. The twigs rot and fall off. The ruin of whole orchards results, for the trees wither and die. Forest trees are affected, shade trees do not escape, nurseries are devastated, shrubs shrink away, all that offers twig or branch shares in the destruction. For this reason every one concerned is warned not to set out trees this spring, particularly near old orchards, for in them undoubtedly seventeen years ago multitudes of the grubs fell to the ground and found their way to the roots beneath whence they are now making their way back to fill the earth full of holes when they in clouds burst forth as full grown cicadas not far from the spot where they entered it. If trees are affected the Department of Agriculture has directions for their care and preservation.

Hadn't Changed.
One day a little boy came to the postoffice window asking for mail. The clerk inquired the lad's name and gave him some mail. The following day he again appeared asking for mail, but was not recognized by the busy clerk, who inquired, "Whose little boy are you?" And, the boy, looking trustfully up into her face, replied, "Why, I'm the same little boy I was yesterday."

MOTORAIDS

When the wheels are locked they slide over the surface of the road or street with the momentum and weight of the car dragging one way and the brakes holding them solid. This produces the same effect as applying an emery wheel to the surface of the tire in one spot. If you caught anyone doing this to your tires you would have them arrested for malicious destruction of property.

But when you apply your brakes and lock the wheels you are unconsciously doing the same thing. In addition, you subject the tread to a tremendous tearing strain which may tend to separate the tread from the carcass of the tire. The more careful drivers never lock their wheels, except in an emergency, and they are repaid by much longer tire mileage.

Public Sales

Have your sale announced FREE in this column early, so that you may claim your date and others will stay off of it. These ads are run every day and are gratis with the help of our advertising. We also furnish sale bills without charge. Let us tell you about it.

PUBLIC SALE advertising in the Gazette and Republic is the best way to get your goods and automobiles sold. The farmer has no time to stop along the road to read sale bills. He is notified by the date and articles to be offered for sale. It is coming to depend upon these papers the buyer from a distant who sees your ad in this paper, who jumps in to his auto and hustles to your sale. You pays what your stuff is worth. Your neighbor no longer can stand around and pick off what he needs at an absurd price, as he does when you have not properly advertised, and gotten a good crowd. Use the Gazette and Republic if you want the worth of everything you offer. Don't try to save on your advertising.

H. E. SCHMIDT IS FINED \$50 AND COSTS IN TWO CASES

A fine of fifty dollars and costs in each case was the sentence. Police Judge E. Dawson Smith handed down Monday morning in the two cases against H. E. Schmidt for violating the awning and sidewalk ordinances.

Before sentencing Mr. Schmidt, the Police Judge overruled a motion for a new trial. He fixed Mr. Schmidt's bond for the payment of the fine as \$300 in each case and the matter will now be carried to the higher courts without delay.

Mr. Schmidt was found guilty of violation of the city ordinances regulating sidewalk display and awnings last week.

COUNTY COMMITTEE FOR DEVASTATED FRANCE MEETS

A meeting of the Greene County Committee of Devastated France was held at the home of Miss Margaret Steele Saturday afternoon. The chairman, Miss Fogg and secretary-treasurer Mrs. Reed of Yellow Springs were present and arrangements now made for starting the work of helping these poor war stricken people of France. Yellow Springs women have already begun work and have made 7 quilts.

These quilts are of cotton, the squares of any size, knotted not quilted and are six feet by six and a half feet in dimensions. Go through your scrap bag and see how many pieces you have to donate for this cause and put in your spare moments in making these quilt patches. If you can not make the squares, please send the material either to Mrs. J. M. Carper or Miss Margaret Steele. There will be a meeting of women who are willing to sew on these quilts at the home of Miss Steele Tuesday at 2 o'clock. Bring with you thread, thimble, needle and pieces for patches.

ANOTHER FALSE CLUE IN ROBBERY IS RUN TO EARTH

Another false clue in the robbery of the Hutchison & Gibney department store was run to ground by Chief Canaday Monday when a telegram received from Chief Frank Smith of the Cleveland department disclosed that stolen goods recovered in that city had already been identified by Detroit officials as the booty of a store robbed there.

When Chief Canaday heard that a truck load of stolen silks had been recovered by the Cleveland authorities he immediately wired Chief Frank Smith an inquiry in an effort to identify some of the goods as that taken from the local store. The answering wire disclosed that the truck was loaded only with bolt silk—three hundred bolts being secured—and that Detroit officials had already claimed it.

Chief Canaday is optimistic concerning the ultimate capture of the thieves and he is still running down the clues that present themselves in the case. As yet however, nothing has come of the investigations. The fact that there have been no recent reports of similar robberies leads to the belief that the professional syndicate, which it is believed is doing the work, is lying quiet for a time.

MISSIONARY WOMEN ENJOY MEETING AT THE REYNOLDS HOME

Mrs. Eber Reynolds, Mrs. C. L. Jobe, Mrs. W. F. Orr and Mrs. R. D. Williamson were hostesses to the Women's Missionary Society of the Presbyterian church, which met at the home of Mrs. Reynolds Friday afternoon. Mrs. George S. Macaulay was in charge of the devotionals, and a paper was read by Mrs. D. B. Watt. Tea and cake were served by the hostesses, assisted by Mrs. Eber Reynolds, Jr. The women devoted much of the afternoon to discussing the coming Presbyterian missionary meeting which is to be held here April 9, 10 and 11, and making plans for the banquet which is to be served for the young people's societies the night of April 9.

That Much Assured.

A somewhat impecunious young fellow rashly engaged himself to a charming young thing, who shortly after the excitement had subsided began to evince doubts. Said she: "How long, dearie, do you think we shall have to be engaged?" "Well, sweetheart," said the young man cheerily, "I have enough money to last for six months, I think."

DOCTOR URGED AN OPERATION

Instead I took Lydia E. Pinkham's Vegetable Compound and Was Cured.

Baltimore, Md.—"Nearly four years I suffered from organic troubles, nervousness and headaches and every month would have to stay in bed most of the time. Treatments would relieve me for a time but my doctor was always urging me to have an operation. My sister asked me to try Lydia E. Pinkham's Vegetable Compound before consenting to an operation. I took five bottles of it and it has completely cured me and my work is a pleasure. I tell all my friends who have any trouble of this kind what Lydia E. Pinkham's Vegetable Compound has done for me."—NELLIE B. BRITTINGHAM, 609 Calverton Rd., Baltimore, Md.

It is only natural for any woman to dread the thought of an operation. So many women have been restored to health by this famous remedy, Lydia E. Pinkham's Vegetable Compound, after an operation has been advised that it will pay any woman who suffers from such ailments to consider trying it before submitting to such a trying ordeal.

FIFTIETH ANNIVERSARY OF THE FOUNDING OF SOCIETY CELEBRATED

The fiftieth anniversary of the founding of the Women's Foreign Missionary Society of the Methodist Episcopal church, was celebrated by both local congregations Sunday, the First church and Trinity church devoting the morning service to programs in celebration of this golden jubilee.

The society was organized by a handful of devoted women, in Tremont Temple, Boston, March 23, 1869, Mrs. Butler, wife of Bishop Butler and Mrs. Parker being active in its founding. The aim of the organization for its jubilee year, is to secure 400,000 members in the United States.

The services at Trinity church were particularly interesting, since the date also marked the thirtieth anniversary of the founding of the Lal Bagh Foreign Missionary Society, by Elizabeth Thoburn, who was the first missionary sent by the Methodist Episcopal church to India. The society, through respect to Miss Thoburn, and at her request, was given the name of her school in India, which in English signifies "Garden of Roses."

The pulpit of the church bore a beautiful basket of pink carnations and narcissus, and six members of the society served as ushers. The choir sang a special anthem "The Lord is My Shepherd." The pastor, the Rev. H. J. Jewett, preached a beautiful and appropriate sermon, his theme being "The Encouragement of the Consecrated Womanhood of the Church."

The thank offering amounted to about \$60, which sum is about \$20 greater than is usually given.

The Lal Bagh Society was organized by young girls of the church, who constituted its first members.

WILLIAM H. McCLELLAN DIES MONDAY MORNING

William Hamilton McClellan, one of the county's best known farmers, died at his home in the McClellan neighborhood west of the city, at 6 o'clock Monday morning, following a long illness. Mr. McClellan had been in failing health for two years, but recently his condition became more serious, and for the last two weeks he was confined to his bed.

Mr. McClellan was 75 years of age, and his entire life was passed on the farm where he died, and which home has been in the possession of the McClellan family for 16 years. He was an upright Christian man, hospitable, an excellent neighbor, but of a nature that was singularly quiet and reserved.

Before he was 21 years of age, he enlisted in the army, during the civil war, and served four months. He was a lifelong member of the Second United Presbyterian church, and was always faithful to his obligations to the church. He is survived by two sisters, Misses Nannie and Etta McClellan, who nursed him most tenderly, and who are left alone in the old home. The funeral services will take place Wednesday at 2 o'clock at the family home on the Lower Bellbrook pike.

THINKS HE'S UNLUCKY

Chicago, March 24.—Fireman Frank Casset claims he's unlucky. He fell two stories yesterday and merely split a thumb. And he'd just taken out an accident policy paying \$500 for a broken leg.

A Woman's Verdict

Tells of Suffering Greatly With Kidney and Bladder Trouble and How Balmwort Brought Relief.

Her Letter Well Worth Reading

Mrs. Nellie McGinn, 609 East 138th street, New York City, writes:

"For the last year I had suffered greatly from Kidney and Bladder trouble, distressing pain in the back and hips, with rheumatic twinges and frequent severe headache, accompanied by nervousness, chills and fever; also a frequent desire to eliminate, a smarting, burning sensation, with pain in the region of the bladder. I would frequently have to arise at night, my sleep being disturbed by the pressure and inflammation in bladder. Beginning the use of Balmwort Tablets I noticed almost instant relief, and continuing to use them I am now totally well and relieved of all pain and distress from which I suffered. I am glad to recommend Balmwort Tablets as a reliable beneficial medicine and trust others may find freedom from pain and distress as I did, etc."

The above letter is a true statement and is on file in our offices. Balmwort Tablets bring relief when other medicine has failed. Sold by leading druggists, \$1.00 per tube.—Adv.

BEQUEST TO HOME BY WAR VETERAN--- PROBATE NEWS

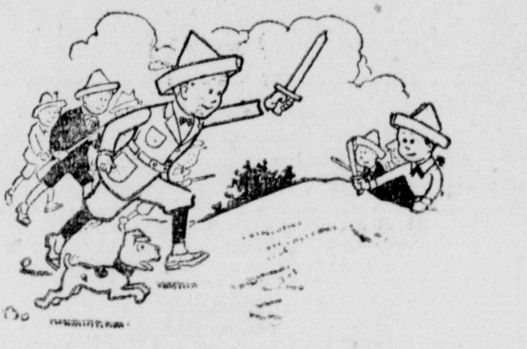

Oliver P. Hoffman, a Civil War veteran, late of Bath township, whose will was admitted to probate yesterday, leaves \$350 to his executor for the purpose of having the two twelve pound brass cannon now at the entrance to the Ohio Soldiers' and Sailors' Orphans Home, remounted and placed near the flag staff on the Home grounds.

Mr. Hoffman also bequeathed \$500 to his executor, Albert Kern, of Dayton, a trustee of the Home, for his personal use.

The residue of the estate, valued at \$9500 is bequeathed to the widow, Emma J. Hoffman, and it is provided that at her death, what remains of the estate is to go to the Miami Valley Hospital, Dayton.

French West Indian Islands.

Martinique is only one of the French West Indies. Its population of 185,000 slightly exceeds that of Guadeloupe, the second island of importance in the group. Besides Guadeloupe there are four other islands belonging to France in the West Indies, all closely connected with the mother country, and in all of which the population is 95 per cent black or colored.
